

RE: Honouliuli dilution - ambient profile request

Dan Connally to: Elizabeth Sablad

12/04/2012 07:07 AM

Hey Elizabeth,

I know you're busy, but if you get a chance, below is our ftp site information. No rush on this, as the call with the permittee isn't even occurring until Thursday, and they probably won't get started immediately anyway.

Using Windows Explorer, go to: <ftp://visitor@ftp.pgenv.com>.

Use the following log in information:

Username: visitor@pgenv.com

Password: 100%PGE

Place files in the "incoming" file.

Please let me know if you have any problems.

Thank you,

Dan Connally

Hi Dan,
I don't think I'll be able to send it via email. It's 35 MB, and we are in the process of changing email systems. Do you have an ftp site I could use? I'm in Hawaii for EOY meetings, so have limited access and availability, but if you have any ideas, let me know.

-Elizabeth

Hey Elizabeth,

I received the email below on Friday, but none of the associated data. Would you mind trying to send it again? Otherwise, we could use our ftp site.

Thank you,

Dan Connally
